

## **Logistics Monthly Training Topic #3**

# **Logistics Training in Action**

Practical Application of Acquired Skills

Craig Ginn . Kristin Ramos . Mark Douglas

# Course Logistics

- Sign-In Sheet
- Restrooms
- Emergency Procedures

# Tell Family and Friends.....

**Don't Forget...**

<http://shakeout.org/washington/>

# Today's Agenda

1. Obtain situational awareness for incident
2. Incident start up procedures
3. Mission Tracker Exercise
  - From Initial Request to Complete (Enter resource requests, assign the missions, update mission statuses, complete the missions)
4. After Action Review Entry
5. CPOD Overview
6. Lunch
7. CPOD Site Tour – Lacey (Sandy Johnson, Guide)
8. DES Warehouse (Bob Bippert, Guide)

# **Training Agenda Item #1**

## **Obtain Situational Awareness**

- The EOC has been activated to Phase III in response to a flooding incident
- Notified staff (YOU) have arrived in support of the activation
- Please refrain from login activities until after the situational briefing for this training activity

# Situation – Exercise

(Based on actual events from the 2007 Chehalis flooding event)

- Interstate 5 is closed both northbound and southbound at Chehalis and Centralia exits
- Record flooding occurred in Centralia, Grand Mound and Porter on the Chehalis River, and the Elwha River at McDonald Bridge

*photo by Jim Thode, 2007*

# Situation – Exercise

(Based on actual events from the 2007 Chehalis flooding event)

- Interstate 5 was initially closed both north/southbound from Milepost 68 (SR 12) to Milepost 88 (Grand Mound)

- I-5 in the Chehalis-Centralia area was re-opened with a single lane in each direction only for commercial trucks over 10,000 pounds gross vehicle weight

# Challenge – Exercise

(Based on actual events from the 2007 Chehalis flooding event)

- Vehicles not permitted on the interstate were faced with arterial road closures and flooded neighborhoods

# Status – Exercise

(Based on actual events from the 2007 Chehalis flooding event)

- Lewis County has exhausted its supplies of:
  - Signage
  - Barricades
  - Personnel for traffic control\*\*
- Due to flooding related power outages, residents are in need of:
  - Shelf stable meals\*\*
  - Bottled water\*\*

\*\* = See next slide

\*\* = See next slide

# Status – Exercise

(Based on actual events from the 2007 Chehalis flooding event)

- The Governor has signed an Emergency Proclamation for six counties and a request for a Presidential Declaration
  - \*\* Hints:
    - National Guard can be used as a personnel resource
    - ESF #7 lead, DES can utilize the Tumwater warehouse property as a staging area for contracted meals and water acquisition and cross docking into loads to CPODs

# Status – Exercise

(Based on actual events from the 2007 Chehalis flooding event)

- Work together as the State EOC Logistics Section to achieve operational objectives
- You may use EMD Logistics Staff as resources
  - Not everyone may remember how to logon to the workstations, open Outlook, or logon to WebEOC
  - A WebEOC Quick Reference Guide is provided

# Training Agenda Item #2

## Incident Start Up Procedures

- Login to workstations (Password is on the whiteboards)
- Open Outlook
- Login to WebEOC
  - Determine LSC, DLSC, ASLC
- Sign in to Staffing Board
  - You may work in pairs

# Training Agenda Item #3

## Mission Tracker Exercise

- Using the paper copies provided, enter the resource requests into the mission tracker
  - Coordinate with each other to ensure each mission is only entered once
  - Assign the mission to the appropriate ESF
  - Make a minimum of two “Add Actions”
  - Complete the missions
  - Be as detailed and as realistic as possible

# Training Agenda Item #4

## After Action Review

- Locate the After Action Review link on the WebEOC Board
- Discuss as a group three successes in the exercise and three areas in need of improvement as a result of the exercise
- Designate one person in the room to enter the successes and one person in the room to enter the areas of improvement

# Training Agenda Item #4

Community Points of Distribution  
Abbreviated for Monthly Logistics Training

# COMMUNITY POINT OF DISTRIBUTION

**So let's begin!**

Right Click and Open Hyperlink to Play

**What is a Community Point of Distribution?**

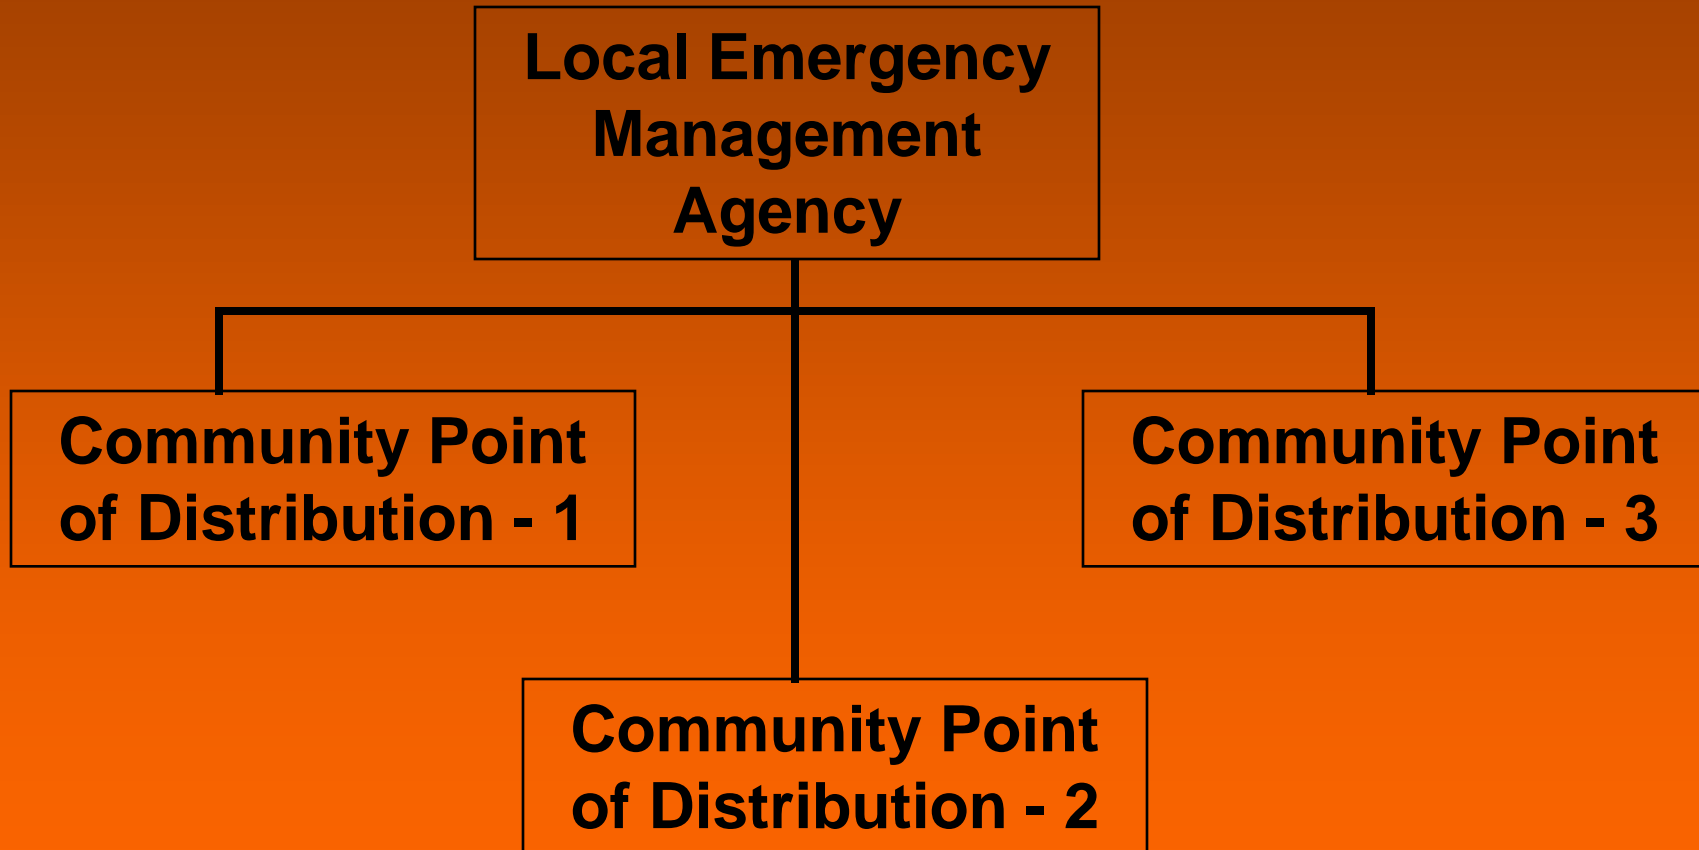

# Community Point of Distribution

- Community Points of Distribution are centralized locations where the public picks up life sustaining commodities following a disaster or emergency
- Usually includes shelf stable food and water
- The decision to open a CPOD is determined by the local emergency management office

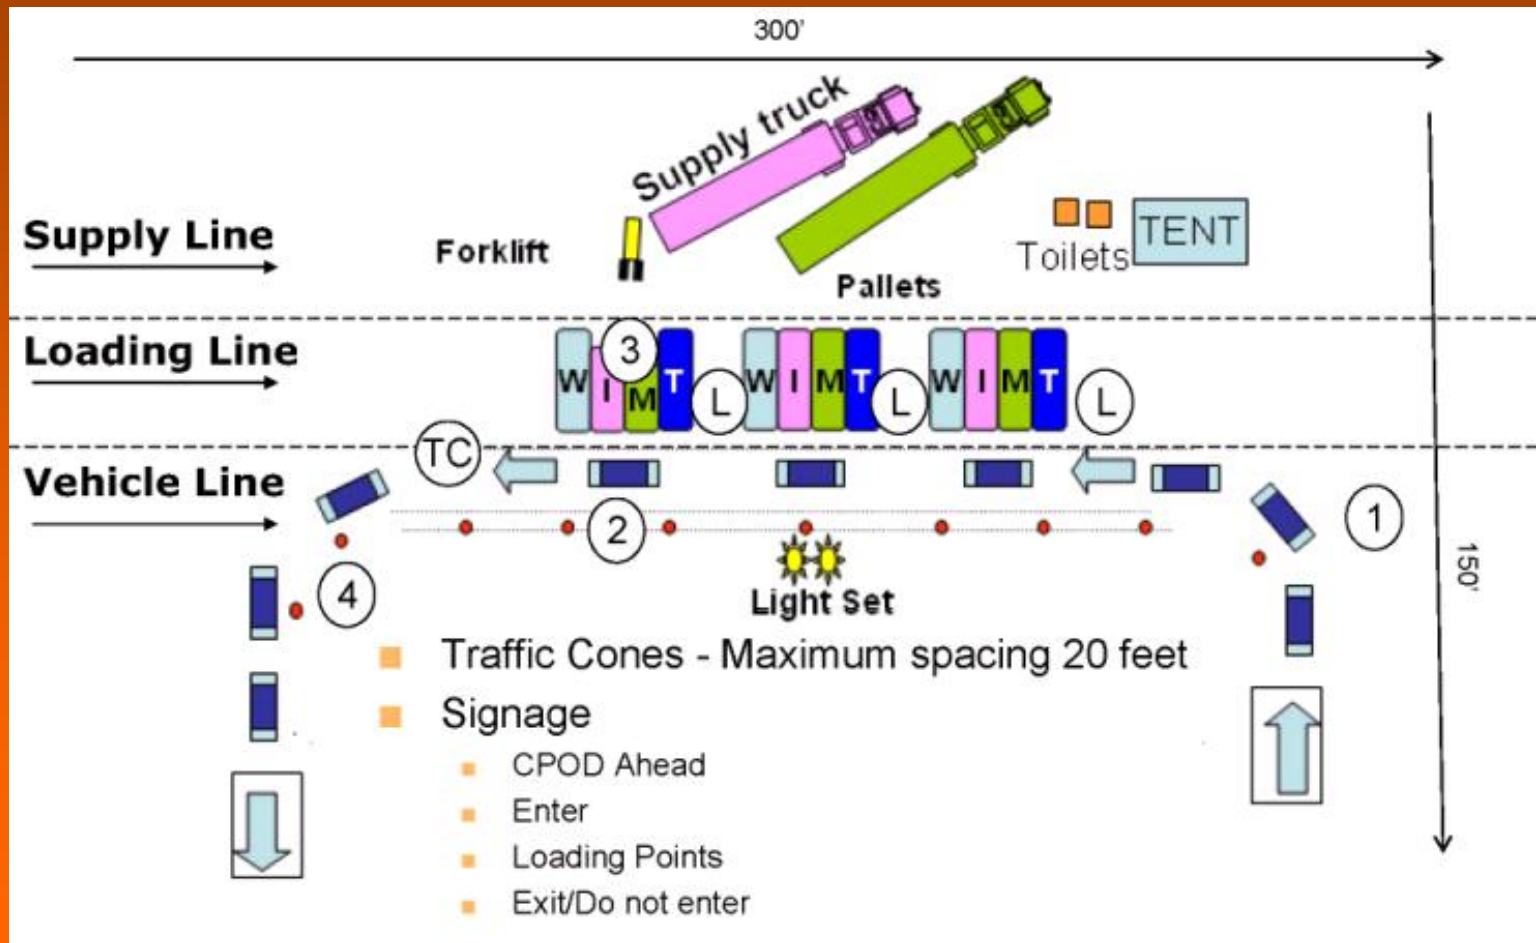

# Organizational Structure

# CPOD Type III Site Layout

# Resource Accounting

- What Items Are Tracked?
  - Burn rates are reported to the State Logistics section for adjustments in ordering to meet local demand
    - Burn rate - usage

# Closing the CPOD Site

- Once local infrastructure begins to come back the need for CPOD sites will be reduced
- The local Emergency Management Agency will determine when to close individual CPOD sites
- The local Emergency Management Agency will contact State EOC Logistics with closure notification information

# What Did You Learn?

# Next Steps

- Sign out of WebEOC staffing board
- Close all open workstation applications
- Log off workstation, turn off monitor, but leave computer on
- Wipe down workstation
